153 ecu, others don't, but it has a bad reputation. - 153 ecu is the only US motronic 1.1 ecu and has the "split apart" circuit board when doing a performance chip upgrade. - motronic 1.1 doesn't have as many check engine codes, fuel injectors are a difference impedance, not sure if there are any other differences. - in order to swap ...

BMW чип тюнинг. Motronic 1...-3.....

The E34 5 Series was the most advanced of the traditional BMWs, both in form and function. Its iconic BMW 3-box design language was more refined than its E28 predecessor, yet still traditional compared to the E39 that followed. BMW described it as "Sophisticated styling that is aerodynamic while in motion, and admired when parked."

Motronic Technical Info - BMW E28 & More

This system is used on most 3, 5, 6, 7 and 8 series BMW models

from the mid/late '80s through the mid/late '90s. The system can be identified (in most cases) by the large round underhood Data Link Connector (DLC). With Motronic 1.1, the number 1 pin on the ECU (Engine Control Unit) harness plug is the coil negative wire.

1985 BMW 535i E28 Alpine White M30B35 1.3 Motronic Engine ...

Motronic 1.1 and 1.3 Motronic 1.1 and 1.3 are an evolution of the early Motronic EMS fitted to previous BMW vehicles during the early to middle 1980's. Motronic 1.1 was first fitted to some 6 cylinder models in 1987 and was superseded in 1988 by Motronic 1.3. The main differences between 1.1 and 1.3 concern the SD feature. 1987 versions of M1.1 contained some small differences to the 1988 version.
