ACG Clinical Guideline: Genetic Testing and Management of ...

With two benign tumors in my liver, a medium size hiatal hernia and GERD I feel like there is no room in my whole middle section. I feel sick all the time, and have shortness of breath and upper back pain daily. I've been on Nexium 40 mg for two years and still get heartburn even when I drink water at times. I am seeing the specialist Thursday for results on biopsies taken.

Image courtesy of Praiseng, at FreeDigitalPhotos.net. If you have been diagnosed with chronic hepatitis B, your doctor has probably run several blood tests that show if the infection is harming your liver and identify what stage of infection you are in. Doctors consider all of these results when deciding if you need treatment and how often you should be monitored.

Here, we identified a Salmonella T3SS effector, SopF, that potently blocked bacterial autophagy. Removal of sopF from *S. Typhimurium* led to about 80% intracellular bacteria being targeted by autophagy. We identified the V-ATPase-ATG16L1 axis that initiated xenophagy upon bacteria-induced vacuolar damage. SopF specifically ADP-ribosylated Gln124 of ATP6V0C in the V-ATPase to block its ...
