Five Meters of Time/Cinco metros de tiempo: Children's ...

Regular office hours are from 9 a.m. to 5 p.m., and the average time for dinner is around 7 p.m. That means if one were to slip outside of their domestic reality for some nonmonogamous fucking, the 5-to-7 time slot is arguably the best time to do so — or at least the one with the most plausible deniability.

Convert 5 Meters per Second to Feet per Second

Meter is the measurement of the number of pulses between more or less regularly recurring accents. Therefore, in order for meter to exist, some of the pulses in a series must be accented—marked for consciousness—relative to others. When pulses are thus counted within a metric context, they are referred to as beats.(Cooper and Meyer 1960, p. 3)
