What is a Network Security Assessment? - IT Support Services

Network Security Assessment talks about the methodology of security assessments, the how of running nmap, for example with specific commands and a discussion of why. I have really appreciated the book for this reason. A methodology in this field is sorely lacking. Everyone seems to have their own (myself included).

Network Security Assessment: Know Your Network - Chris ...

Normally, when you add up the cost of our assessment tool and the time our tech will spend with you, we'd charge \$450 or more for this service. It's important to us that you know what's going on with your IT. So, for a limited time, we're offering this assessment for FREE. There's no obligation.
