and local government finance. More specifically, it is a branch of microeconomics that studies urban spatial structure and the location of households and firms (Quigley 2008).

Urban Economics

'Paul Cheshire, Max Nathan, and Henry Overman recognize the large disconnect between urban economics and urban policy, and their book is intended to help bridge that gap. It is the authors' general contention that "urban economists have to date contributed very little to the development and evaluation of real-world urban policy" (p. 1).
