The Weber Style Wireless Thermometer is a great tool for making sure you aren't over or under cooking your food. It even comes with two probes so you can check the temperature of two entirely different types of foods at the same time! However, as with any great piece of technology, there's a learning curve involved.

How To Use The Weber Style Wireless Thermometer | Burning ...

Do you notice that when preheating your gas grill the inside temperature doesn't reach 500°F to 550°F, but stays around 250°F? You may have inadvertently caused your grill to go into what's commonly called "bypass" by activating the gas control safety device on the regulator. Not to worry, this video will take you through the few simple steps necessary to getting your Weber® Gas ...
